CONTENTS

New Frontiers from Marine Snakes to Marine Ecosystems
Organized by Harvey B. Lillywhite and François Brischoux

213 Introduction to the Symposium “New Frontiers from Marine Snakes to Marine Ecosystems”
Harvey B. Lillywhite and François Brischoux

217 Marine Invasions by Non-Sea Snakes, with Thoughts on Terrestrial–Aquatic–Marine Transitions
John C. Murphy

227 Dehydration and Drinking Responses in a Pelagic Sea Snake
Harvey B. Lillywhite, François Brischoux, Coleman M. Sheehy III and Joseph B. Pfaller

235 Effects of Oceanic Salinity on Body Condition in Sea Snakes
François Brischoux, Virginie Rolland, Xavier Bonnet, Matthieu Caillaud and Richard Shine

245 Perspectives on the Convergent Evolution of Tetrapod Salt Glands
Leslie S. Babonis and François Brischoux

257 Thermal Biology of Sea Snakes and Sea Kraits
Harold Heatwole, Aliens Grech, John F. Monahan, Susan King and Helene Marsh

274 Habitat Selection by Sea Kraits (Laticauda spp.) at Coastal Sites of Orchid Island, Taiwan
Ye-Ling Liu, Yin-Hau Chen, Harvey B. Lillywhite and Meng-Chung Tu

281 Long-term Field Study of Sea Kraits in New Caledonia: Fundamental Issues and Conservation
Xavier Bonnet

Joseph B. Pfaller, Michael G. Frick, François Brischoux, Coleman M. Sheehy III and Harvey B. Lillywhite

311 Independent Innovation in the Evolution of Paddle-Shaped Tail in Viperiform Sea Snakes
(Elapidae: Hydrophiinae)
Kate L. Sanders, Arne R. Rasmussen and Johan Elmberg

321 Preliminary insights into the Phylogeography of the Yellow-bellied Sea Snake, Pelamis platurus
Coleman M. Sheehy III, Alejandro Solórzano, Joseph B. Pfaller and Harvey B. Lillywhite
